Dear Josh and Ester,

Received your letters. Thanks very much for reserving a room in Nikko for 3 days. I am leaving SF. on the 28th of April for Honolulu. I shall leave there on the 30th, reaching the same day Tokyo. I could not write to you a little bit earlier, since I had some delay in getting my passport validated for Japan and other countries. In Tokyo, I shall try to get a room in Sunagadai hotel for 30th and 1st night. I presume it will be too late for you to reserve the same. I shall leave message at the hotel in case if I am staying in some nearby place.

I have very vague plans about seeing places in Japan. I hope Nikko has enough things for a 3 days visit. However, if there is time and if it is within my purse's limits I would like to Kyoto. This is secondary.

I have ~~also~~ seen the "heritage group" fraction and "His," fraction in Model-E and obtained good separation of these mutants. which have clear P & in the expected limits. Things are fine in lab. I have given the details of running procedures to Wally & Haruko.

Hope to see you both soon.

Regards
Law.

(reminder that Dr. Ikeda
visits our lab, in Denmark in 1958.

Lawson
